Applicazioni Interdisciplinari di PsycINFO

## INTRODUZIONE

La base dati bibliografica PsycINFO è pubblicata dall'American Psychological Association e contiene numerosi compendi di articoli selezionati da oltre 2.000 riviste pubblicate a livello mondiale. Pur essendo una fonte d'informazione ampiamente utilizzata dagli psicologi, PsycINFO rappresenta altresì una preziosa risorsa di materiali interdisciplinari. Sia gli educatori che i ricercatori nel campo dell'educazione hanno scoperto il valore di PsycINFO per le ricerche riguardanti gli aspetti comportamentali e psicologici dell'educazione, dall'istruzione pre-scolastica fino all'università e all'apprendimento in età adulta.
